

LULLABY

Lamp's final measurements depend on the setup of arms.

DESIGN – Anna Siedlecka & Radek Achramowicz

DESCRIPTION – Pendant lamp with big flexible, air-filled shade in transparent PVC. An elegant concept that appeals to Murano glass. The air is the main material, which the lamp is built of, that's why despite its size the lamp is very lightweight.

The arms can be placed in 2 ways which makes 3 possible lamp's forms and sizes (it's up to end-user). Glossy finish.

Canopy in semi-transparent plastic, construction in transparent acrylic. Lamp fitted with three suspension cords and transparent electrical cable.

The lamp is delivered deflated, to be assembled and air-filled by a customer.

Body	PCV	transparent			
Construction	PMMA				
Light source		compact fluorescent (bulb not included)			
Input voltage	240 V	110 V			
Weight Net/Gross	1,5 KG	3,3 lb	/	2,0 KG	4,4 lb
