F!NK Orime Light installation

Installation should only be done by a qualified electrician. Each Orime light comes with a light bulb mounting plate, covering plate, 3 x screws, 3 x toggles. The screws should be used when installing into timber or ceiling rafters and the toggles for gyprock plasterboard.

Cord feeds through light

To change bulb: Pull cord and light socket down through the light opening. Socket locks into edge of opening so the bulb can be changed.

F!NK Orime ceiling rose installation
